

# 24W

## USB Fold Up Solar

Part Code: STPFF24

Harness the sun's energy with the 24W fold up solar charger. Its cutting-edge monocrystalline solar cells and dual USB ports (1x USB-A & 1x USB-C) ensure your devices are always charged no matter where your next adventure takes you.

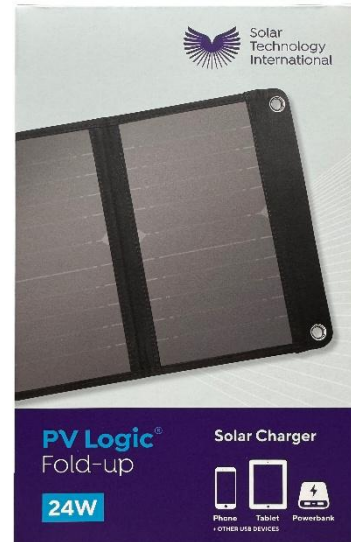

With a built-in zipped pouch to keep your gadgets safe and sound while they power up, the 24W fold up solar charger is your ultimate outdoor power companion, whether you're camping, fishing, or hiking.

Both compact and efficient, this fold up panel is able to charge your phone, tablet, power bank or other USB electronic devices and is the perfect solution to keeping you topped up when you're on the go.

### What's in the box?

Alongside the 24W fold up solar charger, you will find the following accessories:

- 2x carabiners clips, ideal for attaching the solar charger to a rucksack, tent, or any other suitable place.
- 1x USB-A to USB-C cable for attaching your devices.
- 1 x user manual.
